- **Tools & Technologies:** Git, GitHub, Visual Studio Code, Microsoft Office Suite
- **Project Management:** Project planning, scheduling, task coordination, reporting, risk management, stakeholder communication
- **Soft Skills:** Teamwork, Problem-Solving, Communication, Time Management, Adaptability

WORK EXPERIENCE

PMO Intern — UBL, IT Project Management Office

Aug 2025 – Oct 2025

- Assisted in managing IT projects, coordinating team tasks, tracking progress, and preparing reports.
- Gained hands-on experience in project planning, scheduling, risk management, and resource coordination.

PROJECTS

- **Rehman Public School Website** — *MERN Stack, Full-Stack Client Project:* Built and deployed a complete school website for a real paying client, evolving it from a React frontend into a full-stack application with Node.js/Express, MongoDB Atlas, Cloudinary image hosting, and an admin portal. Deployed backend on Render and frontend on Vercel with a custom domain (rehmanpublicschool.com).
- **Match-Making Application** — *Java & SQL:* Website connecting individuals for life partnerships.
- **Quiz System** — *Assembly Language:* Simplifies quiz administration and participation.
- **Sports Club Management System** — *Java OOP:* Streamlines club administration for teams, players, and tournaments.
- **Fire Alarm Circuit:** Detects smoke or heat and triggers safety alerts.
- **Theatre Management System:** Streamlines ticket booking and theatre operations.
- **Mini Compiler for Procedural Language** — *Python:* Compiler for a simplified subset of C language.
- **E-commerce Jewelry Store** — *MERN Stack:* Online store with JWT authentication and mock payment integration.

CERTIFICATIONS

- Certificate of Participation — Query Quest
- PMO Internship Certificate — UBL
